AGENCIES:

S. M. PETTENGILL & CO., 10 State-st., Boston and 10 Nassau-st., New York, are authorized Agents for receiving Advertisements and Subscriptions for this paper.

S. N. NILES, Agent, Scollay's Building, (Court street, Boston.

DAVIDSON & CO., Agents, Tribune Buildings, New York.

JOHN BURRILL, Agent, 36 Kilby Street, Boston.

The Law Regulating Newspapers and Periodicals.

1. Subscribers who do not give express notice to the contrary are considered as wishing to continue their subscriptions.

2. If subscribers order the discontinuance of their papers, the publisher may continue to send them until all arrearages are paid, the subscribers are responsible for all the numbers sent.

3. If subscribers neglect or refuse to take their papers from the office to which they are directed they are held responsible till they have settled their bills and ordered their papers discontinued.

4. The Courts have decided that a refusal to take a new paper or periodical from the Post Office with out notifying the publisher, and the payment of all arrearages, is prima facie evidence of fraud.

5. Subscribers to newspapers or periodicals removing, are liable to pay so long as the paper or periodical is sent to the residence of the party at the time of subscription, unless notice is sent of such removal to the publication office.

1923

Foreign Patents.

E. EDDY,

SOLICITOR OF PATENTS,

Late Principal Examiner in the U. S. Patent Office, Washington (under the Acts of 1837),

Has opened an Office at No. 191 Washington-st., opposite Kilby Street,

BOSTON.

In addition to the practice of upwards of twenty years in procuring Patents in the United States, he has now associated with him Agents in London and Paris, for the purpose of securing Patents in the Great Britain, France, Belgium, Prussia, Austria, Russia, and other European States. Caveats, Specifications, Assignments, and all Papers or Drawings for the Patent Office, prepared on liberal terms, and with the least possible delay. Inventions prepared for Patents in the United States, or any of the European States above named, with a view to ascertaining the patentability of the same, and the most eligible mode of securing the exclusive right, will be carefully examined, and a written opinion furnished by mail or otherwise, according to the instructions of the inventor. Models and drawings can be forwarded to Washington, to procure the necessary official papers, with the least possible delay. Copies of the Specifications and drawings of any patent in the United States, may be procured by remitting One Dollar to the Solicitor. All communications will be strictly confidential, and no charge will be made for examining into the novelty of inventions, and advising the inventor whether he can obtain a patent or not.

Reference is kindly permitted to the Hon. Isaac M. Singer, late Commissioner of Patents, Boston, Mass.; Hon. Edmund Burke, late Commissioner of Patents, Washington, D. C.; Hon. Thomas Ewbank, late Commissioner of Patents, New York; Hon. Charles Mason, late Commissioner of Patents, Washington, D. C.

Mr. Eddy, in assuring inventors that no person more *completely and thoroughly* capable of prosecuting their applications to secure for them an early and favorable issue at the Patent Office, can be found than himself, respectfully refers to Hon. Edmund Burke, late Commissioner of Patents.

Washington, February 8, 1858.

I have made for me THIRTEEN applications, SEVEN of which patents have been issued, and the remainder are now pending. Such success in procuring patents, I attribute mainly to the talent and ability of Mr. Eddy, to whom I would refer all inventors to apply to hereafter, as they may be sure of having the best attention bestowed on their business that can be obtained.

JOSEPH TAGGERT.

Washington, June 17th, 1858, the subscriber has had a large practice, made on an average, SIXTEEN APPLICATIONS, and has been successful in procuring patents in every case, by which he was employed. Mr. E. EDDY.

CARRIAGES!

CARRIAGES! CARRIAGES!!

THE SUBSCRIBER hereby gives notice that he has been appointed agent for the sale of Sargent, Harlow & Co's Top Carriages of all descriptions, which he is prepared to deliver at his

Carriage Shop on Franklin Street,

Thereby affording to citizens of Bangor and vicinity, in want of such Carriages, an opportunity to purchase direct from the best manufactories in New England, at the manufacturer's prices.

Also, that he still continues the

CARRIAGE MAKING BUSINESS,

In its various branches, including

Repairing, Painting and Trimming,

In the best manner, and at the very lowest prices. From his experience, his facilities for doing business, and the character of his workmen, he flatters himself that in the production of durable and substantial Carriages, his establishment will be second to none in the State.

MR. GEO. S. WALKER,

Well known to be one of the best Carriage Painters in New England, still has the charge of his painting department; offering a very rare inducement to those who would have their work done in an elegant and durable manner, to leave their work at this establishment. *All work warranted to give entire satisfaction*, and all bills for work payable when the work is done.

B. N. THOMS.

Lumbermen, Take Notice!

THE Hunterstown Lumber Company, in Canada East, about sixty miles below Montreal, propose giving out their Saw Logs, by contract, for four years, delivered in their Booms at the Company's pier aforesaid, to be agreed upon, the Company furnishing the Pine Timber Lands to the extent of two or three hundred square miles, and on a healthy river for driving. Application to be made, if in thirty days, to WM. PARKER,

Ottawa Hotel, Montreal,

Or to J. TYLER, Esq., Manager, Hunterstown Mills, River du Loup, Canada East.

None but responsible and experienced operators need apply. ☞ For particulars enquire of JOSEPH PARKER, Peshaw Lake Steam Mills

June24 2md&w

A Homestead for $10.

10,000 Farms and Building Lots,

IN the Gold Region and other portions of Virginia, to be divided among 10,000 subscribers, for the benefit of the new town of Rappahannock. Subscriptions *only ten dollars each* half down, the rest on delivery of the deed. Every subscriber will get a building lot or a farm, ranging in value from $10 to $2,000. These Farms and Lots are sold in this way to induce settlements; a sufficient number being reserved, the increase in the value of which will compensate for the present sacrifice. Building lots will be given to actual settlers.

☞ More Agents are wanted to obtain subscribers, to whom the most liberal inducements will be given. For full particulars, subscriptions, remittances, &c., apply to

Fort Royal Va.

Hancock Bank.

A DISTRIBUTION of twenty-five per cent. having been ordered by the Supreme Judicial Court, on all bills and claims alleged by the receivers against said Bank; notice is hereby given that said per centage will be paid to those holding certificates of claims, given by the undersigned, on presentation of said certificates, at our office in Ellsworth.

jy27

TIN WARE.

WHOLESALE AND RETAIL. We are manufacturing large quantities of Tin Ware, and sell to Country Traders and Peddlers cheaper than can be bought in the State. Engraved sheets of tea cake size three or four presses at once, and thus print its 597,000 copies, on an emergency, in two hours time. The Times employs in its establishment some 350 persons. It has eighteen reporters at the houses of Parliament, and for these, as well as the majority of its compositors, the working hours are the night hours exclusively.

Now, notwithstanding the abundant crop of hay in Maine, Massachusetts and New Hampshire, the price at it keeps at $18 and $19 a ton. This is, doubtless, in some measure owing to the deficiency of the crop in New York; where usually a large amount comes forward for shipment.—*Traveller.*

TIN WARE.

WHOLESALE AND RETAIL. We are manufacturing large quantities of Tin Ware, and sell to Country Traders and Peddlers cheaper than can be bought in the State. Engraved sheets of tea cake size three or four presses at once, and thus print its 597,000 copies, on an emergency, in two hours time. The Times employs in its establishment some 350 persons. It has eighteen reporters at the houses of Parliament, and for these, as well as the majority of its compositors, the working hours are the night hours exclusively.

Now, notwithstanding the abundant crop of hay in Maine, Massachusetts and New Hampshire, the price at it keeps at $18 and $19 a ton. This is, doubtless, in some measure owing to the deficiency of the crop in New York; where usually a large amount comes forward for shipment.—*Traveller.*

HALE'S IMPROVED

KEROSENE BURNER.

THIS is acknowledged to be the Best Burner yet invented. It is constructed that the wick is always in the exact position required for the most perfect combustion of the Oil, thus ensuring a saving of one-half the quantity of the Light.

The Oil can be used on a Night Lamp, without the least inconvenience from smoke or smell, as in the common Burner. For sale by

D. BUGBEE & CO.

Bathed To-Day.

Buried to-day—no more—and no more
When the soft, green buds are bursting out,
And up in the south wind comes the shout
Of the village boys and girls at play,
In the summer evening gray.

Taken away!
Stiffly of heart and stout of limb,
From eyes that drew half their light from him,
And put low, low, underneath the clay,
In his spring—upon this spring day.

Passé to-day!
All the pride of young life begun,
All the hope of life yet to run;
Who dares to question when One saith "Nay!"
Murmur not! Only pray.

Entered-to-day
Another body in cherubic rest,
Another host on the life of God.
His Christ was buried, yet lives alway—
Trust him and go your way.

From the Boston Atlas & Bee.

The Victoria Bridge at Montreal.

Within the present week we have visited the Victoria Bridge, in process of construction at Montreal; and if the imperfect description which we can give of this great structure intercests our readers half as much as our visit to it did us, the space we can devote to it will be profitably occupied. It is a tubular structure of iron, laid upon twenty-four piers and two abutments of stone, spanning the river St. Lawrence directly opposite the city of Montreal. Its length is a thousand feet less than two miles.

The river at this point is very deep and the current rapid; and as the ice which forms in the lakes above the city comes down in the spring sometimes suddenly and with overwhelming force, it has been supposed that the successful bridging of the St. Lawrence here was an impossibility.

But we believe the Victoria Bridge will stand unharmed by the assaults of the floods and tempests, and nothing else can ever damage or destroy it, for there is nothing combustible about it, and its strength is more than sufficient to sustain any pressure that can be brought to bear upon it by any load placed thereon. We have stated the length of the bridge.

The bridge itself is approached at each end by embankments of masonry, on the Montreal side 1200 feet in length, on the southern side 800 feet, leaving the iron or tubular part of the bridge 6000 feet in length. In the two embankments, the two abutments at the extremities of the bridge, and the twenty-four piers, there are *three million cubic feet of masonry*. The stones used in them would make a pyramid 215 feet in height with a base 215 feet square, or if laid down in a straight line, the blocks would reach 510 miles. The abutments are each 242 feet in length, the piers on each side of the centre span are 242 feet apart, the central measuring 350 feet.

But the chief wonder of the work is the iron superstructure, made of the separate tubes that form the bridge, through and upon which the trains will pass. This tubular structure is all iron, constructed by joining and riveting together iron plates, very much in the same way in which a steamboat boiler is made. The tubes resemble in shape an ordinary railway car of the most recent pattern, with the curved or sloping roof. The dimensions are as follows: 22 feet in height, 16 feet wide at the centre span, and 19 feet high and 10 feet wide at the ends of the bridge, and each tube reaches across two spans, its centre resting on one pier and the ends on the nearest piers each side; the weight of iron in the tubes is 10,000 tons, and there are 2,000,000 rivets used in fastening the plates together, each of which is clinched by a peculiar process, which we are not mechanic enough to intelligibly describe. The tubular iron portion is painted, both inside and out, with five coats in oil and colors, making 160 acres of paint.

These iron tubes, thirteen in number, are wholly disconnected from each other, the ends of the tubes resting on the piers, but not touching each other. This is the most curious and important feature of the bridge, and it is by this arrangement that the damage to the tubes from the contraction by cold and expansion by heat is avoided, the tubes do not rest directly on the piers nor on the first superstructure of iron that covers them, but upon immense iron rollers upon which the tubes move backwards or forwards as they may chance to be contracted by cold or expanded by heat. Of course, such a slow motion of so heavy and bulky a mass of iron would never be perceptible to the eye, but it can be seen by observing the position of the tubes in different states of temperature, that they do approach towards and recede from each other; the space allowed for this gradual movement of the tubes is so accurately fixed by scientific calculation that the degree of contraction of these immense masses of iron is exactly provided for, and all danger from warping or cracking is securely guarded against. Thus the Victoria Bridge really consists of thirteen separate and distinct bridges, yet all forming parts of one great structure—an additional advantage from this mode of construction is, that if one of the sections should be damaged by any casualty, the others would not be involved necessarily in the calamity.

Another additional idea of the vastness of this enterprise may be gained from the following facts: The cost of work will be $2,000,000, and the *daily* pay roll of the contractors is $6000. The construction of the bridge was commenced nearly six years ago, and is now expected to be finished in October next. Upon the work 3000 men are employed.

The London Times Office. One of the most interesting and novel departments is that in which the stereotyping process is carried on. You know, perhaps, already, that every number of the Times is printed from stereotype plates, thus saving a great part of the wear and tear of the type. The stereotype plate is taken from the "forme" in three minutes, by a new process, invented by a Swiss, and known only to him. A thin layer of soft and damp papier mache first receives the impression of the type, and after it has been hardened by the application of heat, the moleed lead is poured on which is to form the stereotype plate. The papier mache has the power of resisting the action of the melted lead, and comes out of the fiery trial uninjured and almost uncarbonized. These plates are re-melted every day after the issue of the day is printed from them, and the waste of type metal from day to day is very slight. By this power of multiplying in number of forms from which the same side of the paper can be printed, the Times can also three or four presses at once, and thus print its 59,000 copies, on an emergency, in two hours time. The Times employs in its establishment some 350 persons. It has eighteen reporters at the houses of Parliament, and for these, as

sixty years ago, and has no connection with the church, as far as is known; in fact, the mystery is, there is no historical evidence nor traditionary legend which throws the least light upon the obscurity of its creation. No anatomist, historian, ethnologist, antiquarian, nor savant of any stripe, has been able to decide the people, even, to whom these bones once belonged. Were they native Saxons, or Romans, Danes, Normans, or what? Nobody has more than guessed. A plausible theory is that they belonged to Danish invaders, slain by the Saxons about the year 1000; still this is but a probability.

Some of the Beauties of the Slave System.

We compile the following extracts from a few of the Southern statutes,—and we present them at this time that the people may realize something of the nature of an institution which one section of the democratic party contend should be protected in all national territories by a Congressional slave code, and which the other section declares is AS GOOD AS FREEDOM in the view of our Republican national government, and OUGHT TO HAVE AND DOES HAVE, BY THE CONSTITUTION AN EQUAL RIGHT TO ENTER OUR NATIONAL TERRITORIES; this slave system, which, as truly represented below, is CRUEL AS THE GRAVE—is held up we say, even by that section of the democratic party which assumes to be less pro-slavery than the other, as HAVING EQUAL RIGHTS WITH FREEDOM in the Territories of Republican America. This we deny, utterly and entirely. We say that slavery has no *moral* rights anywhere—and no constitutional or legal rights except where the people of a sovereign State choose to take the viper to their bosoms.

But we designed merely to exhibit a few choice extracts from the codes which the democratic party would permit to be introduced into the national Territories that are supposed to be governed upon the principle of equal human rights:

[*Extract from the Penal Code of Georgia, 14th Division, Sec. 51. Approved 1831.*]

"On the trial of any indictment for an assault, or an assault and battery, the defendant may give in evidence to the jury any opprobrious words or abusive language, used by the prosecutor or person assaulted or beaten and such words or language may or may not amount to a justification, according to the nature and extent of the battery; all which shall be determined." [This law is calculated for the safety of overseers or masters, when they "correct" the slaves too severely—but see how it is when the *slave* strikes, as follows:]

[*Extract from the Slave Code of Georgia. "Act for Ordering and Governing Slaves." Section 23.*]

"If any slave shall presume to *strike* any white person, such slave shall, for the first offence, suffer such punishment as the justice or justices shall think fit, not extending to life or limb; and for the second offence, *shall suffer death.*" But in case any such slave shall grievously wound, maim or bruise, any white person, though it shall be *only* the first offence, SUCH SLAVE SHALL SUFFER DEATH.

[*Georgia Code, Act of* 1829. *Sect.* 11.]

"If any slave, negro, or free person of color, or any white person, SHALL TEACH ANY OTHER SLAVE, NEGRO, OR FREE PERSON OF COLOR, TO READ OR WRITE, either printed or written characters, said free person of color, or slave shall be punished by fine and whipping, or fine or whipping, at the discretion of the Court; and if a white person so offending, he she or they, shall be punished with fine not exceeding five hundred dollars, *and* imprisonment in the common jail at the discretion of the Court.

[*Act of* 1833. *Sec.* 11.]

"If any person owning or having in his possession any printing press or types, in this State, shall use or employ, or permit to be used or employed, any slave or *free person of color*, in the setting of types, or other labor about the office, requiring a knowledge of reading or writing, such person so offending shall be guilty of a misdemeanor, and shall be punished by fine not exceeding one hundred dollars.

[*Act of* 1829. *Sec.* 2.]

"All ships or vessels, coming from foreign ports, and having on board any free negro or free person of color, shall be quarantined for 40 days."

Sect. 3. "And if any such free person of color shall come on shore, or have communication with any person of color on shore, he shall be committed to jail until the sailing of the ship.

Sect. 4. If any person of color shall communicate with any such colored person, in or from such vessel, he or she shall be *whipped*, not exceeding thirty-nine lashes."

Sect. 5. "The captain of the vessel shall pay all the expenses of the detention of persons of color from his vessel, and carry them away, under penalty of $500; and if the negro shall not depart the State within ten days, (the captain refusing to carry him away,) he shall be whipped not exceeding thirty-nine lashes."

[*Laws of Virginia. Chapter* 290, *Sect.* 8.]

"A *negro* shall be punished with stripes if he use *provoking language* or *menacing gestures*, towards a white person," &c.

—[*South Carolina Slave Code.*]

A slave striking or offering any violence to a white person—for the first offence, shall be whipped; for the second offence shall be *severely* whipped, and have his or *her nose slit, and face burned in some place*; and for the third offence shall suffer death, if two justices of the peace and three freeholders shall so adjudge."

Brassy.

If the Bangor Union has one quality more predominant than another, it is certainly *brassiness*—and the manner in which it is exhibited provokes us to say that it might be equally well characterized if the two first letters of the word were dropped. We make this remark in consequence of an article in the last Union wherein it is assumed, without a shadow of proof, that those clergymen who in 1854 protested to Congress against the passage of the infamous Kansas-Nebraska Bill and the opening of a free Territory to slavery, are now *ashamed* of that bold and honest act, and would hesitate to re-endorse it at the present day—because (says Mr. Brassy-Impudence of the Union) "there is now a great revolution going on in politics."

The truth is—and the Union knows it—that there is not a man of the signers of that protest who has ever faltered or wavered in the views therein announced, or who would hesitate to reaffirm them now, or at any future time when a proposed act of Congress shall make such an expression again advisable. It is moreover an utter falsehood that any such "revolution" in sentiment as the Union affirms has taken place, or is taking place. How many men can the Union produce, who opposed the Kansas-Nebraska Bill in 1854, and who are now in favor of that measure—men who formerly acted with the Republican party, and now act against it?

Will the Union please to publish some of the *names* of the men who have created this mighty "revolution?"

Democratic Lying.

The Bangor Union,—referring to the naturalization law of Massachusetts (which, by the way, is not adopted by any other State)—says:

A foreign-born white man cannot vote until he has been seven years in the State; while a negro, imported though he may have been by the Echo in her private venture of last summer, enjoys the most unrestricted right of suffrage.

Does the Union pretend to say that the law makes any difference between a white foreigner and a *colored* foreigner? If so, it utters what it knows to be an UNADULTERATED FALSEHOOD.

Greeley in California.

Horace Greeley, of the New York Tribune, arrived at Placerville on Saturday, 30th July, and was received by the authorities and citizens of that town with much enthusiasm. In the evening he addressed the people, who had assembled in great numbers on the plaza. On Monday Mr. Greeley left Placerville. At Mud Springs, he addressed a considerable number of miners and others, who had assembled to meet him. On the afternoon of that day, the Reception Committee recently appointed at Sacramento proceeded to Folsom where they met Mr. Greeley. The Union thus describes the meeting:—

"At a quarter to four, a carriage drawn by a pair of roan-colored ponies drove at a pretty smart pace down the street and straight up to the depot. By this time most of the committee had wandered off in the vicinity of the bridge, so that when the proprietor of a little old glazed traveling-bag, marked "H. Greeley, 154 Nassau street, New York, 1856," a very rusty and well worn *white coat*, a still rustier and still more worn blue cotton umbrella, together with a roll of blankets, were deposited from the carriage, there was no one present of the committee to take him by the hand. The crowd about the depot, however, closed in so densely that Greeley was fain to make for the first open door that presented itself. This, unfortunately happened to be the bar-room attached to the ticket office, and here some of the committee found him with his back turned defiantly against the sturdy rows of bottles and decanters, talking informally with some friends who had been beforehand; and here the committee seized their guest, and with considerable trepidation hurried him across to the hotel over the freight depot, followed by a large and increasing crowd."

Mr. Greeley was escorted to an upper room, where some complimentary speeches were interchanged between the committee and himself.—He afterwards made a short address to the people of Folsom.

Do You Want the Names?

The Bangor Union, in a recent article, says:

You will not again witness the infamous act of giving more than $11,000 of the people's hard earned money, to a political favorite for spending a few hours' time in Washington in procuring the allowance to Maine of the sum of $75,000! This wholesale robbery on your Treasury has been committed by LOT M. MORRILL and his Council.

Does the Union want the facts in this case? Does it want the *names* of parties published who recommended and urged the Governor and Council to pay this, and even a much larger per centage, for the services rendered by Mr. Weston in securing this claim? If the Union desires names, we think it can have them—and they won't be all "Black Republicans" either. If the Treasury has been robbed in this matter, it was not done without good "democratic" advice.

What plant given by a lady to her suitor would express "leave of absence?" Say go, (Sago)

Why are ladies' eyes like friends separated by distant climes? Because they *correspond* but never meet.

☞ We are indebted to Mr. E. W. Hanson for the Edinburg Weekly Herald of July 13th.

LOCAL AND MAINE NEWS.

REV. MR. BAPST.—We understand that it has been in contemplation by the church authorities to transfer the Rev. Mr. Bapst, of the St. John (Catholic) Society, to another field of labor. In view of this proposed change, a petition is in circulation, and has been already very numerously signed by the Protestants of the city, embracing our most prominent citizens, asking that Mr. Bapst may be retained in his present pastoral charge. His estimable character as a man and a citizen, and his eminent services in the cause of temperance and good order, have led to this somewhat unusual step on the part of the Protestant people of the city. We trust the application may be successful, and that Mr. B. will be retained. No clergyman of his Church could give better satisfaction in his parish, or be more acceptable to the citizens at large.

In Police Court yesterday, Michael McNamara for an assault upon Cornelius Crownin was fined $5 and costs.

One Brown, and Mary Hayes, charged with an assault upon John Hayes, were discharged with good advice from the Court in regard to family quarrels.

☞ Will our friend who sent some "Lines" yesterday, cull and English a few of the words?

☞ We are indebted to Mr. F. B. Warren for late California papers.

THE GREAT TROT AT PORTLAND.—We are requested to say that the Somerset & Kennebec and Kennebec & Portland roads will carry passengers for half fare to witness the great trot to-morrow (Thursday) in Portland, between "Flora Temple" and "Princess." Tickets good for two days—up Thursday and back Friday.

ORDINATION AND INSTALLATION.—The ordination and installation of the Rev. C. C. Everett over the Independent Congregational (Unitarian) Church and Society will take place on Thursday (to-morrow) evening, Sept. 1st. The sermon will be by Rev. James Freeman Clark, of Boston. The Maine Church Association will hold a business session during the day at the church, commencing at 11 o'clock A. M.

We understand that Rev. Wm. P. Jewell, of Camden, who came to this city last week to bury a child, and who a few days after lost his only remaining child, now lies dangerously sick of typhoid fever at Rev Dan'l Warren's.

SENTENCE.—John Frazier, indicted for forgery, pleaded guilty, and on Friday was sentenced by Judge Davis to two years in State Prison.—We believe he now hails from Amity, in Aroostook County.—*Bath Times.*

The business of the Lewy's Island Railroad, for April, May, June and July, has amounted to $8,800; paid to Calais & Baring Railroad $1,682; gross expenditures $8,044.

The Brunswick Telegraph thus notices the "strains" of an amateur violinist: A day or two since some one was practising upon a violin in a building in the rear of our office, and the strains that were sent forth reminded us of the dying chorus of a thousand cats. Filing a gang of saws would be a paradise to the violin music. We recollect that when a boy we attempted the clarionette, and we nearly ruined a fine dog belonging to a neighbor, who was, while we played, endeavoring, but vainly, to make more horrid sounds than we did. The dog was troubled with bronchitis to the day of his death.

"DEMOCRATIC" NOMINATIONS FOR WASHINGTON COUNTY. For Senators, C. R. Whidden and J. B. Coffin; County Treasurer, J. C. Talbot; County Commissioner, Mr. Pettingell, of Perry.

The Eastport Sentinel informs us that on Sunday night of last week, Phineas Richardson of Yarmouth, Mass., fell through Leavitt's wharf to the beach, a distance of from twenty to thirty feet. He received a bad cut on the head, and probably received other injuries. He was speechless from the time the accident occured until the next morning at about 9 o'clock. At last accounts he was improving.

The Boston Traveller learns that Rev. Wheelock Craig, of New Bedford, declines the Professorship in Bowdoin college, to which he was elected at the late Commencement.

The "Democratic" Convention in Cumberland nominated Joseph Howard of Portland, Robert S. Soule of Freeport, Frederic Nutting of Casco, and Calvin Record of Auburn, for the State Senate.

☞ Our acknowledgments are due to Elijah Low, Esq., for some beautiful specimens of the McLaughlin plum. Although this is not a "plum year," many of Mr. L's trees appear to be in excellent bearing, and have produced very fine fruit. In pears also he has been very fortunate, or very successful. His garden bears the works of an intelligent culture.

BIG LOG.—The Machias Republican says:—The longest and largest log ever driven down our river, has been lying at Dublin Mill Island, and been purchased of Mr. Hemenway by Amos Dyer, Esq., Cherryfield, for one of his vessels now being built by him. It was seventy feet long, four feet in diameter at the butt end and two and a half feet at the top end. It scales 3500 feet. It was cut on Township No. 36.

ATTEMPT AT HOUSE BREAKING.—Sunday night about 12½ o'clock, a young lady residing in one of the block of houses on Lincoln street, at the foot of Pearl, observed a man trying to effect an entrance into one of the other houses in the block. He tried the windows and doors on the front side, but not succeeding in his efforts, he went round to the back side, but met with no better success. He then went away, and soon returned with a long pole, with which he again attempted to force an entrance. Hearing a noise, he suddenly decamped, leaving the pole behind him.—*Argus.*

Fires were burning rapidly on Columbia river previous to the rain. On Wednesday, the lands owned by the Company, of which Geo. Harris, Esq., is Agent, were burning over at a ruinous rate. The meadows on Indian river, below the county road were on fire. So says the Machias Union.

THE PORTLAND ROBBERY.—The plunder found at the house of Rooney, who is under arrest for robbing the jewelry store of E. P. Banks of Portland, consists of seven gold watches, 3 silver do, 11 gold watch chains, 2 silver do, 22 gold lockets, 2 sets shirt buttons, 2 gold crosses, 109 gold rings and some other articles, the value of which was upwards of $1000.

RECEPTION OF GEN. PIERCE.—Arrangements are being made at Manchester and Concord to give Ex-President Pierce a public reception on his arrival home to-morrow or Thursday.

The boys who set fire to the Massachusetts State Reform School have been bound over, Creaden in the sum of $5000, and his five accomplices in the sum of $2000 each, to recognize for their appearance at the next term of the Criminal Court, to be held in Worcester. In default, they were all committed to jail. Creaden declared to the officer having him in charge, his regret for what he had done, on account of his widowed mother.

OREGON.—A correspondent of the National Era, writing from Oregon City, July 4, says that the present prospect and hope of the Republicans is that they will send to the United States Senate next year, Gen. Lane's term expiring March, 1861, one Republican and one anti-Lane Democrat, and that Oregon can be induced to vote for the Republican nominee for the Presidency in 1860, if well supplied with suitable documents for educating the popular mind. Of the election for Representative, he says that the result is a Republican triumph, whether Stout or Logan be elected. He adds that Gen. Lane's special appeal during the canvass was, "that he had pledged the State for ten years, as sound in its Democracy, to those Southern Democrats who voted for its admittance, and who, but for that pledge, would have defeated that measure."

TELEGRAPH TO THE PACIFIC.—The wires of the projected line of telegraph to the Pacific have been extended to Atchison, Mo., and the work is still progressing westward. We do not understand, however, that the funds have been provided to complete the work. On the California side, the wires have been stretched across the snowy Sierras into Carson Valley, and are coming westward towards Salt Lake City with rapidity and certainty. The company has thus far pursued its way without help from abroad, and the capital of the Golden State has alone contributed to the enterprise.

The agitation in favor of repealing the laws prohibiting the African slave trade, is very rapidly becoming the popular sentiment of the southern people, and the sooner our northern fellow-citizens are convinced of the fact, and make up their minds to accede to our just demand, the better for the peace and prosperity of our political Union.—*Mississippian, Aug 9th.*

Thus speaks the organ of Jefferson Davis, the pattern National Democrat who was so feted and treated by the Democracy of Maine this time last year. Has Mr. Davis changed, or approving him then, do the Maine Democrats approve him now?

THE ROPE-WALKING MANIA OUT WEST.—Rope-walking is all the rage just now, and almost every boy able to stand upon his legs is trying his skill, with a view of ultimately eclipsing Blondin or De Lave.

There was an exhibition upon De Lave's rope, on Monday night last, about eleven o'clock, which did not appear in the bills. One of the press boys employed in this office, James Buckley, aged sixteen years, proceeded quietly with a companion, at the hour mentioned, to the west end of the rope, at the saw-mill, and boldly started for Fall's Field without balancing pole or any other accompaniment. He was about half an hour in making the perilous journey, which, it may well be imagined, was accomplished with no little difficulty and danger. He was sometimes astride of the rope, then beneath it, "travelling with his feet, and, in crossing the guys was obliged to hang by his hands alone. When the size of the rope, which he was unable to span with his hands, is taken into consideration, the extreme peril he encountered becomes apparent. His palms are blistered and calloused, and it is hardly probable that he will soon enter upon such a foolish undertaking again.

As we said before, rope-walking in the mania of the hour. In almost every house-yard youngsters are to be seen trying their skill; and passing through Exchange place on Tuesday, we observed that some of them were turning their "talent," to some account. At a gate between the Post Office and Front street, on the south side, sat a ragged urchin on a three-legged stool, playing the part of "door-tender," under a sign which announced—

"Rope-walking—Admission Six Cents."
—*Rochester Union.*

It is rumored that the sum of FIVE HUNDRED DOLLARS has been paid to Fraud Commissioner Pike for this service—every dollar of which was drawn from the Treasury without law, and contrary to the laws and constitution of the State!—*Augusta Age.*

The service referred to is the exposure of the outrageous frauds practiced by the Democrats in Aroostook at the last election. When it is remembered the editor of the Age could have ascertained the exact truth or untruth of the "rumor" by walking to the State House, (only a few hundred yards from his office,) it would seem that he was more anxious to play the mere partisan than to be an impartial chronicler of facts.

Now we are authorized to state that Mr. Commissioner Pike never received a cent of compensation for his services, and that his account, as audited and paid by the Executive Council, only covered the expenses necessarily incurred in making the investigation; and that these expenses were not more than one-half of the sum stated by the Age.

THE NORTH ATLANTIC TELEGRAPH.—Tal. P. Shaffner, Esq., the well-known telegraph contractor, left Worcester on Friday, with the intention of setting sail in the barque Wyman from this port for the Gulf of St. Lawrence, Labrador, Greenland and Iceland, for the purpose of making soundings for a North Atlantic Telegraph. His wife and a number of friends accompany him.—*Boston Journal.*

RUMORED LOSS OF U. S. FRIGATE CONGRESS, WITH ALL ON BOARD.—*Philadelphia, Aug.* 29.—There is a rumor prevalent here this evening that the frigate Congress, which sailed from here on the 14th, has gone down with all on board. The story seems to have originated at the Navy Yard, but it is impossible to trace it to any definite source whatever. It has caused much anxiety among the friends of the crew.

The last Legislature of Michigan passed an act empowering any number of citizens, not less than ten, nor more than one hundred, to organize themselves into a body corporate, for the purpose of apprehending horse thieves and other felons, and investing each member of such body, when engaged in making an arrest, with the powers of a constable.

DEATH OF AN OLD MERCHANT.—Prince Hawes, Esq., for many years the senior partner of the firm of Hawes, Gray & Co., of this city, died Sunday, at his residence, 144 Tremont street, of typhoid fever.—*Boston Journal.*

The manufacture of coal oil or Kerosene is carried on very extensively all over the country, and it is said to be very profitable. (The highest yield of oil from coal is said to be 110 gallons from a ton of coal.)

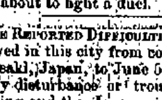
Francis Egerton, Duke of Bridgewater, never would let any one come to him—he would always go to them; "for," said he, "if they come to me, they may stay as long as they please; if I go to them, I can stay as long as I please."

LATER FROM CALIFORNIA.—*St. Louis, Aug.* 29*th.*—By the overland mail, San Francisco dates to the 8th have been received. The demand for goods is increasing. Horace Greeley was visiting Col. Fremont. Broderick and Gwinn were about to fight a duel.

THE REPORTED DIFFICULTIES IN JAPAN. Letters received in this city from commercial houses at Nagasaki, Japan, to June 5, make no mention of any disturbance or trouble with American shipping and the Japanese authorities, as reported recently. On the contrary, everything was going on harmoniously.—*Boston Journal.*

SPECIAL NOTICES.

THE PENOBSCOT MUSICAL ASSOCIATION



Will hold its Twelfth Annual Session IN *NOROMBEGA HALL,* BANGOR, commencing on TUESDAY, October 11, 1859, At 9 o'clock A. M., continuing its session *four days,* under the direction of B. F. BAKER, Esq., of Boston.

Mrs. J. H. LONG, of Boston as Vocalist, and Mr. J. W. ADAMS, of Boston, as Teacher and Vocalist, will be present, to render their valuable aid.

The new book, "Choral Harmony," by B. F. Baker and W. O. Perkins, will be used; also, the Oratorio of David, by Neukomm.

On FRIDAY EVENING, a PUBLIC CONCERT will be given in aid of the objects of the Association.

Tickets of admission to the Course, at one dollar, to be had of the Secretary, Hammond street, opposite City Hall.

To Choirs and Clubs from abroad, a discount will be made, if desired, towards defraying their expenses, on application to the Committee, or Secretary.

Application for board at reduced rates, may be made to Mr. G. W. MERRILL, No. 66 Main street.

E. F. DUREN, Secretary.

A Card to the Deaf.

DR. YOUNG tenders his thanks to the large number of the Deaf—individually and collectively—who thronged his rooms during his recent visit to the city. By the request of many patients, he will visit Bangor again, on

Monday, August 29th;

And will come prepared to treat any and all cases of *Nasal Catarrh,* so frequently the cause of deafness and much suffering. Dr. Young will guarantee a cure in this affection, by the application of his method, in from *one to four weeks!*

Bangor, July 11th, 1859.

VACCINE VIRUS.

The undersigned would give notice to physicians, and the public generally, that he has made arrangements to have, at all times, a supply of pure and fresh *Vaccine Virus.*

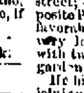
House Lots

—AND—

[illegible]

For Sale!



A very fine House Lot, with a great variety of Fruit trees in a bearing state, is left with the subscriber for sale on easy terms; situate opposite the garden of the subscriber, lying between French street and Broadway, nearly 80 feet deep and 100 feet on each street.

He has also, of his own, in each direction from this, many good Lots, which he would sell on easy terms, and a credit for the most (if wished.) He has two lots between the R. R. Bridge and Cumberland street; Land for 5 Lots, East side of Centre-st., opposite Parker's store; that part near the brook very favorable situations for the use of steam power; one very large one nearly opposite Madison street, with two Park Lots joining back of it for a large garden.

He has also over 30 acres in mowing and tillage, joining the intersection of Broadway and Centre st., on the East side, with a Farm House and small Barn, and what is worth more than both, a superior living fountain in its midst, and reservoir, built with brick, to hold 64 hhds of water, which can be led in pipes to the most of the land.

—ALSO—

Some good land for small Farms, about two miles from Broadway, on Stillwater Avenue. Terms liberal.

ALSO,

THREE STORES,

AND

TWO STORE LOTS,

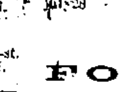
On the northern part of his Block, on East Market Square.

☞ The strong desire he has to close up the most of his business, will induce him to sell LOW, and to give some very good bargains in the above, and on easy terms.

N. HARLOW.

jy11 tf

For Sale,



HOUSE LOTS, on the most elevated part of Centre street, commanding a fine view of the city and surrounding country.

These Lots have never been offered before, having been used for a Nursery, &c., joining their residence.

july28 N. & S. C. HARLOW.

ROOMS

FOR RENT!

The pleasant and spacious Rooms in the Harlow Block corner of Harlow and State Sts., recently occupied as the Jefferson Office, are for rent, and possession given immediately. There are two large rooms, and can be rented together or separately.

Inquire of N. HARLOW, or J. B. FOSTER, at the N. M. Ins. Office. 5 jul1

Ayer's Sarsaparilla

A COMPOUND REMEDY, in which we have labored to produce the most effectual alterative that can be made It is a concentrated extract of Para Sarsaparilla so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immeasurable service to this large class of our afflicted fellow citizens. How completely this compound will do it has been proven by experiments on many of the worst cases to be found of the following complaints —

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, TUMORS, PIMPLES, BLOTCHES, TETTORS, SALT RHEUM, SCALD HEAD, ITCH ITIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASES, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ENFEEBLED BLOOD OR SYMPTOMS OF A FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD

This compound will be found a great promoter of health when taken in the spring, to expel the foul humors which, if left to stagnate in the blood at that season of the year By the timely expulsion of those many rankling disorders are nipped in the bud Multitudes can by the aid of this remedy, spare themselves the usual sickness and suffering at this season, or escape severe cures, through which the system will strive to rid itself of corruptions, if not assisted to do this thorough the natural channels of the body by an alterative medicine Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores, cleanse it when you find it is obstructed and sluggish in the veins, cleanse it when you feel it foul, and your feelings will tell you when, for when the health of this important fluid is disturbed in any part of the system disorder is felt people enjoy better health, and more longer, for cleansing the blood Keep the blood healthy, and all is well, but with this poisonous fluid disordered there can be no lasting health Sooner or later something must go wrong and the great machinery of life is disordered or overthrown

Sarsaparilla has long been known to possess the reputation, of accomplishing these ends But the world was egregiously deceived by preparations of it, which pretended to be concentrated extracts of it contain but little of the virtue of Sarsaparilla, or any thing else!

During the past few years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar Most of these have been frauds upon the sick for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla, which flood the market, until the name itself is justly despised by many Let some proof now be furnished that such a remedy as we claim can be relied upon, and the afflicted will no longer be deceived

Prepared by

DR. J. C. AYER & CO.,

LOWELL MASS

Price, $1 per bottle, - - - Six Bottles for $5

Ayer's Cherry Pectoral,

has won for itself such a renown for the cure of every variety of Throat and Lung complaint that it is entirely unnecessary for us to recount the evidence of its virtues, whether it has been employed in this or foreign lands. Such a remedy must be a public blessing, if there are such things as public benefactors, and the people have a right to know where the people its quality is kept up to the best it has ever been, and that it may be relied on to do for their relief all it has ever been found to do

Ayer's Cathartic Pills,

FOR THE CURE OF

Costiveness, Jaundice Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles and Rheumatism, Liver Complaint, Dropsy Tetter, Tumors and St Vitus's Dance, Worms, Gout, Neuralgia, as a Dinner Pill, and for Purifying the Blood

They are sugar-coated, so that the most sensitive can take them pleasantly and they are the best a patient in the world for all the purposes of a family physic

Price, 25 cents per box, Five boxes for $1

Great numbers of Clergymen, Physicians, Statesmen, and eminent persons, in every part of the world, have voluntarily certified to the unparalleled excellence of these remedies, but our space here will not permit the insertion of them. They may be found in the pamphlets of our *American Almanac*, in which they are given with also full descriptions of the above complaints, and the treatment that should be followed for their cure

Do not be put off by unprincipled dealers with other medicines, who may make more profits on them, and I ask a fair trial of these. The good they will do when bestowed upon this SALVE, cannot be accessible to rich and poor, that all alike od may avail themselves of its healing qualities

Sold by W L Alden & Co., B F Bradbury, N S Harlow J S Ingraham, and Wm Mann Bangor; D Batchelder, Kenduskeag; F B Warren East Corinth; S Libbey, Orono; J M Sewer, Stetson and by all druggists and merchants throughout the country aug1 d&ow1w&wly

TESTIMONIALS

[From a gentleman well known in the vicinity of Lowell, Mass.]

WILMINGTON, Mass., 24th Nov 18—

DR. WISTAR'S BALSAM.—Gents I feel it my duty to inform you, and in return, in order that the public should be benefited by the use of your valuable preparation of WISTAR'S BALSAM WILD CHERRY, that my wife was entirely cured of a severe cough, by the use of eight bottles of your Balsam, after having tried various other remedies to no avail. I also can say that I myself was cured of a severe cough, of eight years standing by Dr Clarke's Cherry Syrup

MRS. D. A. CHEVYER South Canton Vass., was cured of a severe, long standing cough, and that of children of croup and lung difficulties, by this Syrup She says "I have more faith in it than all other medicine"

New England Ailments,

AND

THE ONLY REMEDY!!

THE Eastern States, included in that section of the Union which is most widely known as New England, with a thrifty, industrious population, a people who enjoy a common share of prosperity, with a climate extreme, trying to certain constitutions and a soil of no fertile character, is subject to a train of ailments, peculiar to these communities in almost every clime, that can lay claim to social comfort and happiness Importunately those ailments, consequent on a disordered liver, and dyspepsia, cultivation, that they ne, lect the precautions which are essential to fortify health. Dyspepsia and physical debility are the prime causes of all these ills The first disease is produced by inattention to the digestive organs which are so susceptible of derangement. Then follows that long train of miseries, the necessity of this neglect, and suffering, daily the most trying to the human mind without a hope of relief Those ailments are too well known to require minute description, but that they must be put to the end To annihilate these ailments is the skill of the most eminent physicians of the day, and the satisfactory results of their treatment are to be found in all classes of disease almost endless variety of change by the use of this great medicine

I will now fully justified in saying that no medicine has ever gained a popularity so strong, so extensive and so enduring Other preparations, in imitation of it, and c ntaining some of the ingredients of this, it have, by in cans of extravagant advertising, and deceptive statements gained a short lived success, but their unpleasant and worthless nature have soon become apparent and they have proved disastrous speculation to their originators and purchasers The Pain Killer alone, has been found the reliable and sure cure for the complaint and casual ties for which it is designed Its reputation is enduring, and a fortune to worthy proprietors, and we may add that they are, in every sense of the word, worthy men and citizens No money make a better use of their large means and none are more truly generous and benevolent No one that we are aware of, envies them their good fortune, for it is believed that they have well deserved it.
